17 March 1965

Mr. Arthur E. Gardner, Director Composition Information Services 1605 North Cahuenga Boulevard Los Angeles, California 90028

Dear Mr. Gardner:

25X1A9a

25X1A9a

We appreciate your letter of March 8, 1965, to Mr.

on his talk at the Research and Engineering

Council's Conference on computerized typesetting. We have

received a number of interesting letters of 25X1A9a

talk and are endeavoring to comply with various requests for

information on it.

Bob Rossell of the Research and Engineering Council tells me that the verbatim transcript of the meeting is being rushed so that it should be available fairly soon. I believe that copies of this will be available to all participants of the conference. There is an article on the portion of talk dealing with hyphenless justification appearing in the April edition of PRINTING PRODUCTION Magazine. I believe that the information that you want will be available from these two sources.

Your offer of assistance is greatly appreciated.

Very truly yours,

25X1A9a

Chief Printing Services Division
